

Initiating a request in the Online Reliance System

Initiating a reliance request

An investigator, or their designee, can submit a request for IRB reliance. At this time, institutions cannot submit requests on behalf of the investigator.

1. Log in to the [Online Reliance System](#) and click “New Request”.
2. Provide information about your study:
 - Basic information about the research (title of study, a brief description)
 - Name of the Principal Investigator
 - Select the institution that you would like to serve as the Reviewing IRB
 - Funding sources (optional)
 - List the sites that will be engaged in human subjects research for the study
 - For each site:
 - The site investigator’s name and contact information
 - Research personnel names and contact information (optional)
 - Research participants and activities
 - Upload supporting documents (PDFs only):
 - Research protocol
 - Consent templates (optional)
 - Other documentation (optional)
3. Review the request for accuracy.
4. Submit the request. You can log back in to the [Online Reliance System](#) to track the progress of your request. You will be notified by email once a reliance decision has been reached.
